

## Function Description

Function blocks FB105 and FB129 produce the absolute value of their input value for floating point and 16 bit integer values.

## Popup Parameters

- Execution sequence number.

## Input/Output and Parameters

Type	Description	Data Type	Range
Input	Input signal	INT or Floating Point	16 bit signed integer, or 32 bit floating point.
Output	Output signal	Same as input	Same as input signal.

## Application

## Notes

FB129 will produce -32768 when its input is -32768.

Function blocks 105 and 129 can be executed in Cycle and Time tasks.
