

# Advantages of the MICROSERIES and MCZ-SERIES

**D**

## Width

Just 6 mm wide (without cover plate), the MCZ-SERIES offers enough space for electronic circuits.

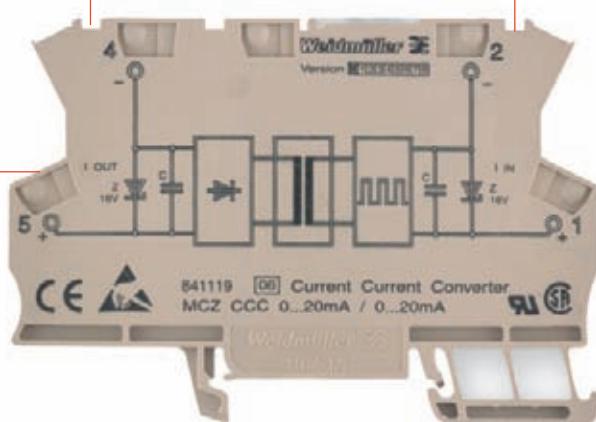

## Connecting

Tension clamp connection

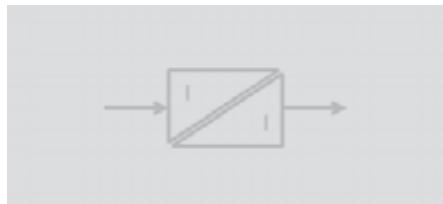

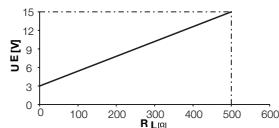

## Cross-connection

The power supply and another potential can be cross-connected

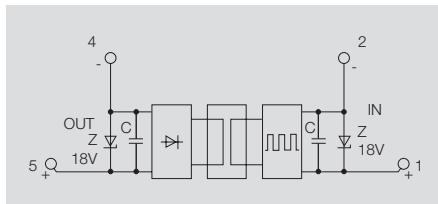

## Input current loop feed

Passive isolator for electrical isolation of standard 0/4...20 mA signals. It takes its power from the measuring signal and does not need any auxiliary power supply. Special features of this component are its low power consumption and the operating current of <100 µA.

## MCZ CCC

markers - see MCZ-SERIES accessories

**DC/f converter**

The conversion of analogue signals to frequencies means it is possible to import analogue signals from the field via the counter inputs of the controller.
