Important Safety Notice

ANY PERSON ATTEMPTING TO SERVICE THIS CHASSIS MUST FAMILIARIZE HIMSELF WITH THE CHASSIS AND BE AWARE OF THE NECESSARY SAFETY PRECAUTIONS TO BE USED WHEN SERVICING ELECTRONIC EQUIPMENT CONTAINING HIGH VOLTAGES.

CAUTION: USE A SEPARATE ISOLATION TRANSFORMER FOR THIS UNIT WHEN SERVICING
REFER TO BACK COVER FOR IMPORTANT SAFETY GUIDELINGS

Proper service and repair is important to the safe, reliable operation of all Dell Company** Equipment. The service procedures recommended by Dell and described in this service manual are effective methods of performing service operations. Some of these service operations require the use of tools specially designed for the purpose. The special tools should be used when and as recommended.

It is important to note that this manual contains various CAUTIONS and NOTICES which should be carefully read in order to minimize the risk of personal injury to service personnel. The possibility exists that improper service methods may damage the equipment. It is also important to understand that these CAUTIONS and NOTICES ARE NOT EXHAUSTIVE. Dell could not possibly know, evaluate and advise the service trade of all conceivable ways in which service might be done or of the possible hazardous consequences of each way. Consequently, Dell has not undertaken any such broad evaluation. Accordingly, a servicer who uses a service procedure or tool which is not recommended by Dell must first satisfy himself thoroughly that neither his safety nor the safe operation of the equipment will be jeopardized by the service method selected.

* * Hereafter throughout this manual, Dell Company will be referred to as Dell.

WARNING

Use of substitute replacement parts, which do not have the same, specified safety characteristics may create shock, fire, or other hazards.

Under no circumstances should the original design be modified or altered without written permission from Dell. Dell assumes no liability, express or implied, arising out of any unauthorized modification of design. Servicer assumes all liability.

FOR PRODUCTS CONTAINING LASER:

DANGER - Invisible laser radiation when open. AVOID DIRECT EXPOSURE TO BEAM.

CAUTION - Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

CAUTION - The use of optical instruments with this product will increase eye hazard.

TO ENSURE THE CONTINUED RELIABILITY OF THIS PRODUCT, USE ONLY ORIGINAL MANUFACTURER'S REPLACEMENT PARTS, WHICH ARE LISTED WITH THEIR PART NUMBERS IN THE PARTS LIST SECTION OF THIS SERVICE MANUAL.

Take care during handling the LCD module with backlight unit

- Must mount the module using mounting holes arranged in four corners.
- Do not press on the panel, edge of the frame strongly or electric shock as this will result in damage to the screen.
- Do not scratch or press on the panel with any sharp objects, such as pencil or pen as this may result in damage to the Panel.
- Protect the module from the ESD as it may damage the electronic circuit (C-MOS).
- Make certain that treatment person's body is grounded through wristband.
- Do not leave the module in high temperature and in areas of high humidity for a long time.
- Avoid contact with water as it may a short circuit within the module.

If the surface of panel becomes dirty, please wipe it off with a soft material. (Cleaning with a dirty or rough cloth may damage the panel.)

1. General Specifications

Items		Specification		
LCD Panel	Screen Size	26" TFT LCD color Panel (LPL)		
	Image Aspect Ratio	Wide Screen (16:9)		
	Resolution	1366 x 768 (WXGA)		
	Viewable Area	575.8mm × 323.7mm		
	Pixel Pitch	0.1405mm × 0.4215mm		
	Display colors	16.7 million		
	Contrast Ratio	600:1 (Typical)		
	Brightness	500 cd / m ² (Typical)		
	Viewing Angle	170° (Horizontal) / 170° (Vertical)		
	Response Time (Gray to Gray)	8ms (Typical)		
	Lamp Lifetime	60,000 hr (Typical)		
	Color Temperature	Cool / Warm		
TV Function	TV Tuning System	NTSC/ATSC		
	Inputs	Video	Composite (CVBS)	Two (side+ bottom)
			S-Video	Two (side+ bottom)
			Component	Two (bottom)
			TV in (coaxial)	Two (bottom)
			Audio (L+R)	Six pairs
			DVI (For use with a video device)	One (bottom)
		Computer	VGA (For use as computer monitor)	One (bottom)
			DVI (For use as computer monitor)	One (bottom)
			Audio (PC)	One (bottom)
	Outputs	Video	Composite (CVBS)	One (bottom)
			Audio (L+R)	One pair
			Headphone	One (side)
	HDTV Capable	Yes		
Closed Cption	Yes			
V -Chip	Yes			
PC Input	Signal Input	Analog: D-Sub 15 pin (detachable cable)		
		Digital: DVI-D 24 pin (detachable cable)		
	PnP compatibility	DDC2B		
	Input frequency	Analog: FH: 31 kHz to 64 KHz; FV: 50 Hz to 75 Hz		
	Input Audio F	Headphone Mini-jack for stereo		
Audio Output	Audio Output: L / R	Speaker (built-in): Two 15 (max) watt speakers		
		Effects: SRS TruSurround XT; Midnight Mode		
Power	Power Supply	AC 100V~240V, 50 ± 3Hz, 60 ± 3Hz		
	Power-On Consumption	<180 W		
Panel Tilt/ Swivel	Tilt, Swivel	-5 /+20 degrees, +/- 45 degrees.		
Environment	Operating	Temperature: 0°C ~ + 40°C		
		Humidity: 10% ~ 85%		
	Storage	Temperature: -10°C ~ + 50°C		
		Humidity: 5% ~ 85%		
Weight (with stand)	14.5 Kg			

2. Operation Instructions

2.1 The Use Of Remote Control

Installing batteries

Before you use your remote control, install two-AAA batteries.

1. Slide open the battery cover.
2. Install the batteries, make sure that you match the + and – on the batteries with + and – symbols in the battery compartment.
3. Replace the battery cover.

1	Power Button	Turns the wide LCD monitor on and off
2	Number Button	Press to select a channel
3	Enter	Select an TV menu option, confirms a channel selection
4	Mute	Press to turn the sound on and off
5	CH (up icon)	Push to view the next channel
		In the TV menu, use the channel button to navigate through the menus in the TV menu
6	Vol +	Increases the volume in the TV Menu, use the volume button to navigate through the menus
7	CH (down icon)	Press to view the previous channel
		In the TV menu, use the channel button to navigate through the menus in the TV menu
8	Sleep	Turns on the sleep timer
9	INFO	Display information about your TV display (for example, in TV mode display the channel you are watching)
10	SRS	Toggle SRS surround on and off
11	CC	Cycles through the Closed Caption menu.
12	Audio	Cycles through the preset Audio options
13	Pict	Cycles through the preset options for the Picture menu
14	Wide	Cycles through the size (aspect ratio) options from the Picture menu
15	SAP	Turns on the Second Audio Program (SAP)
16	ANT	Selects TV tuner as input source
17	Guide	Toggle EPC on and off
18	Menu	Enters and exit the TV main menu
19	OK	Selects an TV main menu
20	Vol -	Decreases the volume in the TV Menu, use the volume button to navigate through the menus
21	Prev CH	Returns you to previously viewed channel
22	-	For setting channels
23	Input	Enters and exits the Input Select menu

2.2 Front Panel Control Knobs

Front View

1.	IR receiver	Senses the signal from the remote control
2.	Power indicator Light (LED)	The light is blue when the TV display is on and amber when it is in power save mode.

Right Side View

1.	 Power button	Press to turn the TV display on and off. The power button is blue when it is on and amber when it is in power saving mode
2.	 TV menu button	Press to enable the TV menu
3.	 Volume button	Press to decrease the volume
4.	 Volume button	Press to increase the volume
5.	 Channel button	Press to select the previous channel or navigate through the TV menu
6.	 Channel button	Press to select the next channel or navigate through the TV menu
7.	 Input select button	Press to display the Input select menu

Left Side View

1.	AV Side (S-Video 2)	Connect devices such as a video game system or a VCR
2.	AV Side (Composite 2)	Connect devices such as a VCR or DVD player
3.	AV SIDE audio connector	Use the audio connector if you have connected a device to AV SIDE connector
4.	Headphone connector	Connect headphones

Bottom View

1.	DVI audio connector (L / R)	Use the DVI audio connector if you have connected a device such as a DVD player to the DVI connector.
2.	VGA	Connect your computer.
3.	DVI connector	Connect your computer or video devices such as a DVD player.
4.	Audio connector for VGA or DVI	Connect the audio cable from your computer to the LCD TV Display.
5.	NTSC/Analog Cable	Connect analog cable TV box or an analog antenna.
6.	HDTV/Digital Cable	Connect digital cable TV box or a digital antenna.
7.	Composite out/Audio Out (L/R)	Connect to VCR (L/R) audio inputs.
8.	Composite out/Video Out	Connect to VCR video input.
9.	Composite video and audio connectors (AV1)	Connect devices such as a VCR or DVD player.
10.	S-Video video and audio connectors (AV2)	Connect devices such as a video game system or a VCR.
11.	Component video and audio connectors (AV3)	Connect devices such as a DVD player or cable TV box.
12.	Component video and audio connectors (AV4)	Connect devices such as a DVD player or cable TV box.
13.	Power connector	Connect your power cord.

2.3 OSD Operating

Using Remote Control With the TV Menu

1. To enter the TV menu, press the menu button. Seven icons appear along the bottom of the screen.

2. Use the left and right buttons (volume buttons) to move between the icons.
The icon appears highlighted as you move through the menu.
3. To select an option, push the **OK** button when the icon is highlighted.
4. A new menu appears for that selected option, use the up and down buttons (channel buttons) to move through the various settings.

Note: A red arrow appears next to the setting as you navigate through the options. A check mark appears next to the option that you have selected.

5. Use the left and right buttons (volume buttons) and the **OK** button to adjust or select settings.

Note: You can select EXIT at any time to return to the main menu.

6. After you have made your selections, press the **EXIT** to return to the main menu.
7. To exit the TV menu, select the EXIT icon and press **OK**.

Selecting your TV Menu Language

1. Press **Menu** to enter the TV menu.
2. Select **Setup**.
3. In the **Setup** menu, select **Language** and select the language that you want the TV menu to appear in.

Input Select TV Menu

The **Input Select** menu allows you to select the proper source based on how you have your TV display and video equipment connected. Press **Input** on the remote to go directly to the **Input Select** menu. You can also press **Menu** and select **Input select** from the main menu.

VGA – Select when your TV display is being used as a computer monitor and you have connected the computer using a VGA cable.

DVI – Select when your TV display is being used as a computer monitor and you have connected the computer or when you have connected a device, such as a DVD player using the DVI cable.

TV Analog– Select when you have your analog antenna or cable TV box connected to the NTSC/Analog Cable connector.

TV Digital– Select when you have your digital antenna or cable TV box connected to the HDTV/Digital Cable connector.

AV1 (Composite1) – Select when you have a video device, such as a video game system, connected to the composite connector .

AV2 (S-Video 1) — Select when you have a video device, such as a VCR, connected to the Svideo connector on the side of the wide LCD monitor.

AV3 (Component 1) — Select when you have a video device, such as a DVD player, connected to the component connector.

AV4 (Component 2) – Select when you have a video device, such as a DVD player, connected to the component connector.

AV SIDE (Composite 2) – Select when you have a video device, such as a video game system, connected to the composite connector on the side of the TV display.

AV SIDE (S-Video 2) – Select when you have a video device, such as a VCR, connected to the S-Video connector on the side of the TV display.

SHOW INPUTS – Show Inputs allows you to select **Active** or **All**. Active automatically searches the connected input sources. The available input sources appear in white and input sources that are not available appear in grey. All shows all the input sources and allows you to select all the input sources even if you do not have a device connected.

Picture Settings Menu

The picture settings menu allows you to adjust the appearance of the image including color and brightness. If you select one of the following preset image setting, the individual setting are automatically updated.

- Movies
- Sports
- Weak Signal
- Multimedia

If you select **Personal**, you can adjust the individual setting, such as **Brightness** and **Color**.

The color temperature presets are: Natural: 6500K

Normal: The native panel temperature: Blue: 9300K Red: 5700K

Audio Setting

The audio menu allows you to set the audio to best fit the type of show you are watching.

SRS Trusurround XT – Delivers virtual surround sound over two speakers from any source, which creates a wider sound with deep rich bass.

MIDNIGHT MODE – Evens out the large volume variations between voice and action scenes. If you select one of the following preset Equalizer Mode settings, the individual audio levels are automatically updated:

- Music
- Theater
- Voice

If you select Personal, you can adjust the individual audio levels, such as **Bass** and **Treble**. Use **Program** to select Stereo, SAP, or Mono.

Size Menu

Size allows you to adjust the appearance of the image. Use **Horizontal shift** to adjust the horizontal placement of the image.

Use the following setting to adjust the aspect ratio:

STANDARD – Best selection for viewing digital HDTV, 16:9 or 22:9 DVD movies.

ZOOM – Best selection for viewing TV VCR or 4:3 DVD movie.

4:3 – Best selection for viewing TV, VCR or 4:3 DVD movie.

WIDE – Best selection for viewing digital HDTV, 16:9 or 22:9 DVD movies.

FULL SCREEN – Best selection for viewing digital HDTV, or 16:9 DVD movies.

Parental Control

Parental Control allows you to restrict access of inappropriate channels and programs to children.

To enter the Parental Control menu, you need an access code. The first time you enter, use access code 3355.

You can set the following options to block content:

Channel Lock- Blocks selected channels

Movie Rating- Block movies based on their rating (C, PC, PC-13, R, NC-17, and X)

TV Ratings- Blocks TV shows based on their rating

Block Control- Turns on or off all your parental control settings

Setting an Access Code

After you enter the Parental Control menu for the first time, you can set your own four-digit access code. If for any reason you lose or forget your access code, you can press channel down and volume decrease simultaneously.

1. In the Parental Control menu, select Change Code.

2. Using the number pad on the remote control, enter a new access code.

3. Select Exit.

Setup Menu

TV Menu Setup allows you to adjust the appearance of the TV menu, to change the language of the TV menu and to restore factory settings.

Use **TV Menu Hold Time** to increase or decrease the amount of time the TV Menu appears. The maximum amount of time is 60 seconds.

In the **TV Menu Settings** you can select **TV Button lock** to lock the TV Menu and the side panel buttons. When this option is enabled, only the power button functions. To unlock the TV Menu and side panel buttons:

1. Press the Menu button on the TV.

A message appears stating that the TV is locked.

2. While the message is on the TV, press the channel up and volume increase button simultaneously.

Setting Your Channel Setup

Your TV is set to automatically detect whether you are using an antenna or cable and then set the available channels. Some cable providers use an older cable standard that the TV cannot automatically detect. If you have your TV connected but can only view channels 5 and 6, complete the following steps:

- 1 Press the **Menu** button on the remote control, or TV to enter the TV Menu.
- 2 Select **Setup** and then select **Channel Setup**.
- 3 In **Channel Setup**, select **Antenna/Cable**, and then toggle to **Cable**.
- 4 If selecting **Cable** does not resolve the issue, repeat steps 1 through step 3 using each available **Channel Setup** option (**HRC**, **IRC**, and **Antenna**) until you can view all channels.

Sleep Timer

Sleep Timer allows you to select an increment of time after which the TV display turns off automatically. You can select from 10 minutes to 3 hours.

Closed caption

In the **Closed Caption** menu, you can select On, Off, or Mute. If you select Mute, CC automatically displays when you use the **Mute** button on the remote control.

You can choose from the following modes:

- CC1 through CC4 and TXT1 through TXT4 (CC1, CC2, and CC4 offer standard Closed Captioning and CC3 provides closed captioning in a secondary language.)

2.4 Connecting LCD TV Display

The LCD TV display has four standard connectors that can be used to connect devices.

Note: Before you connect your LCD TV display, ensure you have all the proper cables. Some cables may come with the device you are connecting.

Quality	Cable and Connector	When to use
Good	 A black panel with various ports. A silver coaxial connector is plugged into the port labeled 'ANT/Cable'.	Coaxial (RF) carries the video and audio from one cable. The coaxial connector is labeled, ANT/Cable on your wide LCD monitor.
Good	 A black panel with various ports. A yellow cable is plugged into the 'VIDEO' port, a white cable into the 'LEFT' audio port, and a red cable into the 'RIGHT' audio port.	Composite carries the video signal through a single pin. If you are using a composite video connector you also need to connect composite audio connectors.
Better	 A black panel with various ports. A black S-Video cable is plugged into the 'S-VIDEO' port, a white cable into the 'LEFT' audio port, and a red cable into the 'RIGHT' audio port.	S-Video splits the video signal into two signals, black-and-white and color.
Best	 A black panel with various ports. Five component video cables (green, blue, red, white, and red) are plugged into their respective ports.	Component splits the video signal into three signals, two color and one black-and-white.

Connect LCD TV to computer

The LCD TV display has two standard connectors that can be used to connect your computer.

Note: The type of connector you use depends on the graphics card your computer supports. For additional information about graphic cards, see your computer documentation.

Quality	Cable and Connector	When to use
Good		A standard graphic display system for computers that uses an analog signal and can support resolutions up to 1360 x 768.
Better		A digital signal that can support digital and convert analog to digital. DVI can be used for high resolutions display and can support resolutions up to 1360 x 768. Connect the audio cable from your computer to the wide LCD monitor Audio connector for VGA or DVI.

Using NTSC/Analog and HDTV/Digital

1. Turn off the TV display and unplug the power cord.
2. Connect the coaxial cable to the NTSC/Analog Cable connector of the TV display.
3. Plug in the power cord for the TV display and turn on the TV display.
4. Enter the TV menu and select **TV Analog**.

1. Turn off the TV display and unplug the power cord.
2. Connect the coaxial cable to the HDTV/Digital Cable connector of the TV display.
3. Plug in the power cord for the TV display and turn on the TV display.
4. Enter the TV Menu and select **TV Digital**.

3. Input/Output Specification

3.1 Input Signal connector

This procedure gives you instructions for installing and using the LCD TV display.

Position the display on the desired operation and plug the power cord into a convenient AC outlet. Three-wire power cord must be shielded and is provided as a safety precaution as it connects the chassis and cabinet to the electrical conduct ground. If the AC outlet in your location does not have provisions for the grounded type plug, the installer should attach the proper adapter to ensure a safe ground potential.

Connect the 15-pin D-SUB or 24-pin DVI color display shielded signal cable to your signal system device and lock both screws on the connector to ensure firm grounding. The connector information is as follow:

15 - Pin Color Display Signal Cable

PIN NO.	Description	PIN NO.	Description
1	Red Video	9	No Pin!
2	Green Video	10	Sync Ground
3	Blue Video	11	Not Used
4	Not Used	12	Serial Data for DDC
5	Ground	13	H-Sync.
6	Red Ground	14	V-Sync.
7	Green Ground	15	Serial Clock for DDC
8	Blue Ground		

Apply power to the display by turning the power switch to the "ON" position and allow about ten seconds for Panel warm-up. The Power-On indicator lights "GREEN" when the display is on.

With proper signals feed to the display, a pattern or data should appear on the screen, adjust the brightness and contrast to the most pleasing display, or press auto-adjust to get the best picture-quality.

This TV (with PC function) has power saving function following the VESA DPMS. Be sure to connect the signal cable to the PC.

If your TV requires service, it must be returned with the power cord.

3.2 Factory Preset Display Modes:

Mode	Resolution	Refresh Rate (Hz)	Horiz. Freq. (Khz)	RefreshRate (Hz)	Horiz.Freq. (Khz)
		Analog		Digital	
A	640 x 350	70	31.47	70	31.47
B	640 x 400	70	31.47	70	31.47
C	640 x 480	60	31.47	60	31.47
D	640 x 480	75	37.50	75	37.50
E	720 x 400	70	31.47	70	31.47
F	800 x 600	60	37.88	60	37.88
G	800 x 600	75	46.88	75	46.88
H	1024 x 768	60	48.36	60	48.36
I	1024 x 768	70	56.5	70	56.5
J	1024 x 768	75	60.02	75	60.02
K	1280 x 768	60	47.78	60	47.78
L	1280 x 1024	60	63.98	60	63.98
M	1360 x 768	60	47.72	60	47.72
Video Formats					
1	720x480i	60	15.734	60	15.734
2	720x480P	60	31.5	60	31.5
3	720x576i	50	15.625	50	15.625

6	1280x720P	50	37.5	50	37.5
7	1920x1080i	60	33.75	60	33.75
8	1920X1080i	50	28.125	50	28.125

4. EDID Program Instruction

4.1 Tools And Software

- a. DDC Writer board
- b. PC
- c. LPT cable
- d. adapter (12V)
- e. WinDDC.exe---DDC Writer software
- f. barcode.txt---the length of the barcode
- g. barcode example.txt
- h. check.dat
- i. config.ini
- j. R.DAT
- k. W2607C Analog&Digital EDID.doc ---The EDID code and content
- L. W2607C.ddc
- m. W.DAT

**Note: The OS(Operating System could't be in Win98)
Picture as shown below for your reference.**

VGA DDC writer

DVI DDC writer

Note: VGA and DVI must not connect at the same time.

4.2 Run DDC writer program

(1) Double-click "WinDDC.exe"; it will appear the figure below:

(2) Click "WriteEDID", it displays the following textbox. Input the Serial Number printed on the barcode label.

(3) Click "OK".

The process of DVI DDC writer is the same as VGA writer process!

5. Firmware Update Instruction

5.1 Tools And Software

- a. USB cable
- b. USB drive
- c. Application code xxxx.upg- The TV firmware code, with .upg extension.
- d. NVM bin file (when needed)-New NVM binary code, with .upg extension.
- e. Nvmtool_encr_64Mbusb11_dev.upg (when needed)-used to upgrade NVM bin file, only needed when release come with new NVM bin file.
- f. Upgrade application (when needed)- the upgrade firmware, with .upg extension.

5.2 Installation

5.2.1 Install firmware codes on your USB flash HD.

- a. Create the following folder in root directory of USB drive: upgrades.
- b. TV and upgrade firmware code (xxxx.upg) should be save under upgrades folder
- c. In case need to update NVM bin file, place **nvmtool_encr_64Mbusb11_dev.upg** under upgrades folder, and rename NVM bin file to **NvmCopyfromUsb.bin** and place in root / directory

5.2.2 Install Hardware

- a. Inserted the USB cable to Mini USB connector of the TV.
- b. Connect USB flash HD to USB cable.

5.2.3 Install NVM bin procedure (When Needed)

1. Insert AC power cord while press the "CH ▼" key of remote control (Illustration 1). Hold the key till upgrade application shows up (Illustration 2).
2. Press VOL+ , VOL- , CH▼ , CH▲ remote control keys to select **nvmtool_encr_64Mbusb11_dev.upg** then

press OK key, select Yes then press OK.

3. Update progress will show upgrade process
4. When upgrade complete, unplug the AC power cord.

5.2.4 Install Upgrade application or TV Firmware procedure

Illustration 1

Illustration 2

1. Insert AC power cord while press the “CH ▼” key of remote control (Illustration 1). Hold the key till upgrade application shows up (Illustration 2).
2. Press VOL+ , VOL- , CH▼ , CH▲ remote control keys for select the firmware then press OK key, select Yes then press OK. (You MUST download the upgrade application 1st if it comes with the release, prior to upgrade the TV firmware)
3. Update progress will show upgrade process
4. When upgrade complete, unplug the AC power cord.

6. Definition Of Pixel Defects

6.1 Dot Defect

6.1.1 Bright Dot

Bright dot is defined as Dots (bigger than half sub-pixels), which appeared brightly in the screen when the LCM displayed with whole pattern.

- R, G or B 1 dot ----- not allowed
- Total amount of dark dots ----- not allowed

6.1.2 Dark Dot

Dark dot is defined as Dots (bigger than half sub-pixels) which appeared darkly in the screen when the LCM displayed with bright pattern.

- 1 dot ----- 4 Max
- Adjacent 2 dots ----- 1 Max
- Adjacent above 3 dots ----- not allowed
- Total amount of Dark dot ----- 4 Max

6.1.3 Total amount of Dot Defects ----- 4 Max (Combination)

- Note) a. every dot herein means Sub-Pixel (Each Red, Green, or Blue Color)
 b. Dots smaller than half sub-pixel are not counted as defect dots.
 c. The dot defect is inspected on Red, Green, Blue, White or Black pattern.
 d. Extraneous substances, which can be wiped out, like Finger Print, Particles, are not considered as a defect.
 e. Defects which is on the Black Matrix (outside of active area) are not considered as a defect.
 f. Weak bright dot (Less than 50% of sub-pixel)..... Max 8 on 64 Gray patterns.

6.2. Polarizer Defects

Items	Criteria
Linear Scratch	$0.01 \leq W \leq 0.2$, $0.3 \leq L \leq 5.0$, $N \leq 4$
Dot Shape Scratch	$0.2 \leq D \leq 1.0$, $N \leq 4$
Bubble/Peeling	$0.2 \leq D \leq 1.0$, $N \leq 4$

Where, W: Width

L: Length

D: Average diameter $= (a+b)/2$

a. Average Diameter

b. Linear:

c. Extraneous substances, which can be wiped out, like Finger Print, Particles, are not considered as a defect.

d. Defects which are on the Black Matrix (outside of Active Area) are not considered as a defect.

6.3 Foreign Material

Items		Criteria
Foreign Material	Linear	$0.01 \leq W \leq 0.2$, $0.3 \leq L \leq 3.0$, $N \leq 4$
	Circular	$0.2 \leq D \leq 0.5$ $N \leq 4$

Where, W: Width

L: Length

D: Average diameter $= (a+b)/2$

6.4 Line Defect

All kinds of line defects such as vertical, horizontal or cross are not allowed.

6.5 Bezel Appearance

Scratches, minor bents, stain, particles on the Bezel frame are not considered as a defect.

6.6 others

Issues, which are not defined in these criteria, shall be discussed with both parties, Customer and Supplier, for better solution.

7. White Balance, Luminance Adjustment

Approximately 30 minutes should be allowed for warm up before proceeding white balance adjustment.

Before started adjust white balance, please set the Chroma-7120 **MEM. Channel 3 to Natural** colors, **MEM. Channel 4 to 6500K** color, **MEM. Channel 9 to 9300K** colors and **MEM. Channel 10 to 5700K** colors (Nature parameter is $x = 289 \pm 30$, $y = 304 \pm 30$, **6500** parameter is $x = 313 \pm 30$, $y = 329 \pm 30$, **9300** parameter is $x = 283 \pm 30$, $y = 297 \pm 30$, **5700** parameter is $x = 328 \pm 30$, $y = 344 \pm 30$),

The data of Y of all the mode is $PC > 300$, $AV > 400$, $S\text{-Video} > 400$, $Component > 400$ cd/m².

Devices Requirement:

1. Chroma 7120, Chroma 2327.

2. AV/S-Video/Component signal generator

How to setting MEM.channel you can reference to Chroma-7120 user guide or simple use “**SC**” key and “**NEXT**” key to modify x, y, Y value and use “**ID**” key to modify the TEXT description
Following is the procedure to do white-balance adjust

- After there is no OSD pictures on screen ,Press Number key **2—4—8—6—MENU—INFO** in Remote Control will access into the factory mode.
- In the factory mode ,the menu as follows:

5700K	R、G、B	}	the data is the result of R、G、B after W/B adjustment;
6500K	R、G、B		
9300K	R、G、B		
NATURAL	R、G、B		
NVRAM Init → Initial EEPROM			

Burn in mode **【On/OFF】**

The steps of the PC W/B adjustment as follows:

I. Initial the EEPROM

Press “**NVRAM Init: Press 【OK】 to start**” to initial EEPROM.

Bias (Low luminance) adjustment:

Prepare: ensure the currently mode is PC (VGA)

Press “Auto Balance” button (the image is black and white at the PAT42)

II. Gain adjustment:

1. Switch the chroma-7120 to RGB-mode (with press “MODE” button)
2. Let the signal output the white image (press pattern 105), select one of the color temp (as Natural、6500K、9300K、5700K) and adjust factory mode window R、G、B until up to the value Chroma7120 R, G, B= 100 ± 3 .
3. Select another color temp and follows as item 2.

III The steps of the AV W/B adjustment as follows:

The steps of AV W/B adjustment as follows:

Gain adjustment:

1. Switch the chroma-7120 to RGB-mode (with press “MODE” button)
2. Let the signal output the white image (press pattern 105), select one of the color temp (as Natural、6500K、9300K、5700K) and adjust factory mode window R、G、B until up to the value Chroma7120 R, G, B= 100 ± 3 .
3. Select another color temp and follows as item 2.

IV The steps of the SV(S-Video) W/B adjustment as follows:

The steps of SV's W/B adjustment is the same as AV's.

V The steps of the CP(component) W/B adjustment as follows:

The steps of CP's W/B adjustment as same as PC's.

Press **MENU** button to quit from factory mode.

Max Brightness measurement:

- a. Switch to the full white pattern, in normal mode main menu:
Set <Picture Settings> menu **Brightness, Contrast** to the max.
- b. The Minimum brightness is 400cd/m².

8. Mechanical Instructions

1. Remove Stand and base

Lay LCD-TV on a flat, soft and clean surface.

Remove 4 screws to remove stand and base. **Fig.1**

Fig. 1

2. Remove back cover Fig.2—Fig.5

(1) Remove 4 screws at the top of the back cover. **Fig.2**

(2) Remove 2 screws at the left top of the back cover. **Fig.3**

(3) Remove 2 screws at the right top of the back cover. **Fig.4**

(4) Remove the connector wire of back cover and interface board **Fig.5**

Fig. 2

Fig. 3

Fig. 4

Fig. 5

3. Remove the shield Fig.6—Fig.9

- (1) Remove 8 screws of the shield at the top and bottom shield. **Fig. 6**
- (2) Remove 2 screws of the shield at the left. **Fig. 7**
- (3) Remove 1 screw of the shield at the right. **Fig. 8**

Fig. 6

Fig. 7

Fig. 8

Fig. 9

4. Remove main board, power board and other board Fig. 10—Fig. 11

Fig. 10

Fig. 11
