			9-12 September	3.5 days
			3-5 June	3 days
		Commissioning & Repair	26-28 August	3 days

* Registration for this program is handled by the Danfoss DrivePro Service Team. It is important to contact the Service Dept as sessions are scheduled months in advance and there are prerequisites that must be satisfied in order to attend the session. Each session will conclude by noon on the last day.

- All classes are held at the Danfoss factory in Loves Park, Illinois.
- Classes typically begin at 8:30 AM and conclude at 4:00 PM.
- Deadline to register for a factory session is two (2) weeks prior to the course state date.
- Successful completion of courses include CEUs upon request.

For questions regarding Danfoss Training for Service Partners, please contact the Service Resource Coordinator at:
usdd0608@danfoss.com or 800.621.8806

If you are attending sessions given in the same week, tuition is assessed by the cumulative duration of the sessions attended. For example, if you attend both sessions offered for the VLT AQUA Drive (2-day Installation & Startup, and Application Specific Programming), tuition costs are \$405, which is the cost of a 3-day session (2 days + 1 day). This offers a discount to purchasing the courses separately, which would otherwise total \$465 (\$275 + \$190), please see Tuition Schedule on next page for rates.

Danfoss VLT® Drives - MCU Training

2013 Tuition Costs

Effective: January 1, 2013

Match the duration of your selected class from the previous page to determine your tuition, then use the appropriate order code.

Field training costs represent prices for sessions conducted within the continental 48 states of the USA. Please contact the factory for a quote on field training conducted outside the continental 48 states.

Tuition applies to standard business days (Monday – Friday). Additional fees apply for weekend/holiday training sessions.

	Duration	Order Code	Cost / Participant*
